wich all this week. See adv.

See notices of public hearing to be
held this evening in the street com-
missioner's office.

Frank A. Bill has the exclusive sale
of King Quality shoe, the shoe of
shoes for men. See the new styles
in patent and gun metal calf at 44.

Kennedy's Reception.

Professor Kennedy's best reception
and carnival in Olympic hall on Friday
evening, Jan. 15th, with music by the
Caddis orchestra. This will be the
dancing feature of the season. You'll
want to see the whole program of 25
solo numbers and be in the show dance
the prettiest thing ever seen in Nor-
wich.

High Class Melodrama at the Broad-
way This Week—The Popular Fen-
berg Stock Company Here.

Never before has a writer of melo-
drama depicted such a story of thrill-
ing interest as has Langdon McCorn-
ick in "The Life of an Actress," the
drama which will be presented during his
stay at the Broadway Theater.

The officers of Robert Brucker camp,
Spanish-American War Veterans, de-
partment of Rhode Island, will be
installed Friday evening. Department
Commander William H. Mackay will be
the installing officer, assisted by De-
partment Adjutant Frederick J. Bre-
delle, both now serving in the navy at
the Naval Post School, Naval Depart-
ment, George A. Forsyth of Provi-
dence was also present. After the
installation there was a collation. Many
members of old Company B Third In-
fantry, Connecticut volunteers, are as-
sociated with Brucker camp and Robert
Brucker, who the camp was named
after, was also a member of that command
and died in the service.

Hancock post, Grand Army of the
Republic, department of Connecticut,
received official visitation from De-
partment Commander Edward Griswold
of Guilford and Department Inspector
Hessiah B. Smith of New London
Saturday evening and the occasion was
made a joint session of the local post.
Hancock post of Storington and Wil-
lams post of Mystic. The meeting was
held in the assembly room in Mem-
orial building and Commander Walker
Price of Hancock post presided. Re-
marks for the good of the organization
were made by the department officers,
representatives of the visiting com-
mands, and also by members of Bud-
long post, who were present as guests.
After the joint exercises there was a
collation in Grand Army banquet hall,
where stories of camp life were related
and refreshments were served by
Hancock Women's Relief corps. The
department officers commended the
several posts present on their excellent
standing and gave expression of their
appreciation of the hospitable recep-
tion.

According to the federal bureau of
animal industry, 3 to 4 per cent. of the
cattle of the United States are afflicted
with tuberculosis.

advertisements
carefully.

John Ericsson, the designer and build-
er of the famous "Monitor," whose
services to the navy contributed largely
to the termination of the civil war,
and is an example of the ability
of that sailor-genius, for with few im-
provements the engine is fundamen-
tally the same as he designed it forty
years ago.

In construction the Ericsson engine
consists of a vertical cylinder, one end
of which is in the firebox of the ma-
chine and heated, while the other end
is surrounded by a water jacket and
kept cool. In the cylinder are two
pistons, one right, the other bell shaped
and slightly smaller in diameter
than the cylinder, and the air within
the cylinder is transferred from one
end to the other, and by a process of
compression and expansion produces
the power necessary to operate the
plunger of the pump located on the
side of the cylinder and water may be
raised from wells of almost any depth
and delivered to such storage accom-
modations as may be employed.

The management of the engine con-
sists of building a fire in the firebox
of coal, wood, corn cobs, or in fact,
anything that will burn, giving the
plunger necessary to operate the
work. Any woman or child can op-
erate it, and from a point of danger it
compares with the kitchen range or
sewing machine, and in every sense of
the word is a safe power.

The engine is very strong and dura-
ble—a large number of them put in
operation twenty-five to thirty years
ago are still in use, and they require
so little fuel to run that a handful of
chips and five minutes' time will pro-
duce a day's water supply, and the
farm, with one of these wonderful
machines, may have all the conveni-
ences of the city house.

Westerly's Board of Trade.

(Continued from Page Six.)
doubtless and injuring the credit of
the town.

The Board of Trade can do much
that will benefit Westerly in the fu-
ture of new industries. The best way
is to get the man looking for a business
location, interested in Westerly, and
we should give him every possible
chance of success, but he should not be
given the idea that Westerly would
locate there. Encouraging the pro-
ductive industry, help it locate, but do
not coddle it along. Let us get to-
gether, stop knocking, and give to
individual and his influence can be in-
creased by organization and united ef-
fort through a Board of Trade organ-
ization. The Board of Trade has
figure and a good, steady, healthy
growth in Westerly in the next ten
years will demonstrate that the organ-
ization has done its duty and saved
much for the community.

A few minutes before midnight the
banquet closed with hours for Charles
Aram J. Poirer, John C. Clair and the
Board of Trade.

Miss Ellen Burke, aged 80, died Fri-
day night, after a short illness with
bronchial pneumonia at her home in
Cross street. Miss Burke formerly re-
sided in Cambridge, Mass., and came
to Westerly about ten years ago. She
is survived by a brother and sister, Patrick
Burke of Westerly and Mrs. Wil-
liam McDonald of Montpelier. She was
buried at Judson's funeral home and
James W. Burke.

The officers of Robert Brucker camp,
